

Appl. No. 09/292,668

Attorney Docket APP 1180 US

Remarks

The indication of a claim to the benefit of a prior provisional application was in error, and the sentence added on the filing of this application to identify its parent reissue application has been amended to delete any such reference, as well as to identify the reissue patent that has now issued on the parent reissue application.

Claim 11, which was rejected under double patenting 35 USC 101, as claiming the same invention as claim 11 of the parent reissue patent has been cancelled.

In as much as the remaining claims in this application, claims 33-36, have been allowed, it is believed that this application is now in condition to be passed to issue, and such action is respectfully requested. However, if it would in any way expedite the prosecution of this application, the Examiner is invited to telephone applicants' attorney at the number given below.

Respectfully submitted,

P. E. Fleischer, et al.
